

The Ministry of Textile Industry of Turkmenistan, in order to further expand the opportunities for selling the products of its enterprises through online trading, invites entrepreneurs and individuals engaged in entrepreneurial activities in Turkmenistan to cooperate in creating an online trading platform.

Legal entities and individuals wishing to take part in the project must have the status of a resident of Turkmenistan, a special license and extensive experience in doing business.

The online trading platform that is being created will include the official websites of the project participants, as well as work through mobile applications on Android and IOS, allowing you to sell and buy goods in cash and non-cash form.

It is also considering the possibility of organizing the delivery of goods to all countries of the world through this platform. That is why the platform will work in three languages - Turkmen, Russian and English.

All organizational and other project activities will be carried out in accordance with the legislation of Turkmenistan and other regulatory documents.

The parties' proposals regarding this project will be accepted until April 30 this year.
